# Brightly Colored Lid-Label<sup>®</sup> Covers

***Call Special Attention to Your Special Meds!***

Clearly identifying medications that require special handling, such as those covered by USP <800>, is important for the safety of your staff and patients.

Because of the overwhelmingly positive response to our bright **Yellow** Lid-Label Covers for our Circular, Oval and MPB<sup>®</sup>-Multi-Purpose Medi-Cup Blisters, Medi-Dose has now added 5 more brightly colored Lid-Label Covers – **Blue**, **Red**, **Orange**, **Green** and **Pink** - to help you call attention to specific classes of drugs.

Like all our Lid-Label Covers they provide a tamper-evident and moisture resistant seal. When printed with our powerful and easy MILT<sup>®</sup> software, 1-D or 2-D bar codes, graphics, special fonts, tall man lettering, shapes, logos and symbols (such as bio-hazard, NIOSH, etc.) can be utilized to further highlight important dispensing information and minimize the potential for medication error.
