FOR HEALTHCARE PROFESSIONAL USE ONLY

## Kids Packets Hospital Pack 90ct Product Information

### INSTRUCTIONS FOR USE – FOR ENTERAL OR ORAL USE ONLY

#### ORAL:

- Dispense one (1) packet daily to support your patient's digestive and immune health.\* Mix entire contents into cool food or drink. Do not add to hot food or beverage.  
To alleviate occasional digestive upset, or as an adjunct for antibiotics, dispense two (2) packets daily.\*

#### ENTERAL:

- Gather supplies for administration:
  - (1) Culturelle® Kids Packet (check expiration date prior to administration)
  - (1) 20 mL luer tip syringe
  - (1) clean mixing container
  - 15 mL patient's feeding or cold/room temperature water
  - 1 pair clean non-sterile gloves
  - Germicidal wipes
- Establish a clean surface area away from patient's immediate bed space to prepare Culturelle® Probiotics in liquid form.
- Wash hands and place non-sterile gloves on clean hands.
- Open Culturelle® Probiotic by tearing open packet and allowing entire powder contents to empty into clean mixing container .
- Place 15 mL of patient's feeding or cold/room temperature water into mixing container.
- Gently swirl powder and liquid to aid in disbursement of powder into the liquid.
- Place tip of 20 mL luer tip syringe into mixture.
- Draw up mixture into the syringe and remove excess air.
- Insert tip of enteral feeding syringe into feeding port and dispense mixture into feeding tube.
- Flush with water immediately.
- Dispose of syringe, mixing container, and packet per hospital policy.
